ANOTHER WORLD'S RECORD BROKEN YESTERDAY.

Marriott Drives Stanley Steamer Five Miles in 2:47 1-5

Stanley's racing car on the Ormond-Daytona Beach yesterday, again achieved a world's record, and in the second heat of the five mile open championship race, Marriott covered the course in 2:47 1-5. Arthur McDonald in his 90-horsepower Napier, on the Ormond-Daytona Beach last year, made the five miles in 3:17. This racing at that time was thought to be the best that would ever be attained, but the records as made yesterday smashed all previous efforts. The world's five mile record is greatly lowered as a consequence.

In the first heat of the five mile open championship, Hollander and Taugeman with the Fiat 110-horsepower car, with Lancia as driver, made the distance in 2:54 3-5; Clifford-Earp with the Napier, and Fletcher with the other Fiat started, but they did not finish. The reason they assigned for this, was because several cars were on the beach which threw them out of their track.

Those who participated in the second heat were Fletcher with his Fiat car, who made the time in 3:2, while Marriott made the time of 2:47 1-5. Prior to the second heat an attempt to get a start was made, with Hemery in the Darracq 200-horsepower car, going over the course in lightning time. He made a great run but his time was not officially taken. The timers stated that he had covered the five miles in 2:34. The management would not count this attempt because Stanley and Fletcher failed to get a satisfactory start. After that a wrangle ensued, Hemery refused to try again, saying that he ran the heat in a fair manner. The racing board, however, would not listen to his plea, feeling that what he said was unjustifiable.

The third and final heat in the great race, was an exciting event. Fred Marriott, the Stanley driver, did not seem to have control of his car, and he fell way in the rear. The two Fiat drivers, respectively by Lancia and Fletcher, made a great start, and outclassed the Stanley car on this occasion. Lancia's time was 3:1 1-5. Fletcher's time was 3:2 1-5 seconds. At the start of the race the Stanley steamer was reported as being fully four lengths ahead, and at the finish he was about four lengths in the rear.

Event No. 11, the five mile middle-

weight championship was pulled off yesterday afternoon. The "Reo Bird" did not put in an appearance, and Wayne and Cedrino were the only participants. Cedrino came in first, his time being 3:53 3-5. Wayne came along in 5:46.

Event No. 8 was next. This was the five mile heavyweight championship. The starters were W. Clifford-Earp with S. F. Edge's 80-horsepower Napier, Joseph Downey with J. R. Harding's 90-horsepower Daimler, Lancia with one of the Fiat, and Fletcher with the other Italian machine. The Napier crossed the wire first. Time 2:56. The only other car to finish was the Mercedes. Its time was 3:29 1-5. Fletcher and Lancia both dropped out. Fletcher's intake was sticking, and something else was out of order with Lancia's car.

The other two events, which were the five mile championship, and the fifteen mile Price handicap for American touring cars, were called off for the day. The reason for this was that the judges had not been apprised of the selling prices of the cars, and without this knowledge they could not make the proper handicaps. A. G. Vanderbilt, one of the most popular automobilists in the country, arrived at Ormond Tuesday morning, and was yesterday seen on the beach viewing some of the speeding cars. His Gray-Densmore-Vanderbilt, which has caused so much comment throughout the country, is being put in trim for the two-mile-a-minute race. Many automobilists are of the opinion that the horsepower of the car is too high to do good work.

The deputy sheriffs have had very little trouble on the beach, for the reason that most everyone has learned of the Florida State laws passed at the 1905 session, which allows the beach to be put aside as a public speed highway and to be used exclusively for racing purposes. Everyone should bear in mind, that the sheriff and deputies have absolute control over the beach this week.

Several Red Cross physicians are daily in attendance at the races so as to be in easy call in case of an accident, or other emergency.

PROGRAM FOR TODAY.

The races will commence today at twelve o'clock. All races will start or finish at the Club House.

Hemery May Never Again Drive a Racing Car.

As told in yesterday's Daily News, Hemery appeared with his four Darracqs at the weigher's stand the day previous. Two of the machines went under weight easily, and one was eight pounds over, though this could easily be taken off. Before trying to reduce this weight however, Hemery asked that his lightweight car, a 30-horsepower Darracq, be weighed in. When stripped down this car was still about 40 pounds overweight, and Hemery announced that if that could not enter he would withdraw the others from the races, and turned and went back to the garage.

Later the difficulty with Hemery was satisfactorily adjusted, and Referee Morrell, who is also chairman of the American Automobile Racing Board, announced that the famous Frenchman would race in all events in which he was entered.

Yesterday morning, however, in the first heat, Hemery was ordered back on a false start. He refused to go, and as a result the Racing Board has suspended him, and it is very doubtful whether he will ever drive on the course again.

It seems that Hemery was suspended in Italy about a year ago. This news was transmitted to the French Automobile Association, and the American association, both of which recognized the Italian suspension. Hemery later apologized and was reinstated, however.

A cablegram was sent to the Darracq Company, in France, yesterday asking authority for their American agents to take complete control of their cars and substitute a driver for the balance of the race meet. If the necessary authority comes, Mr. Cook, the American agent, who is here, will substitute Basil, who has been driving for H. L. Bowden, and the Darracq cars will appear in events from now on.

Hemery is highly excitable, unreasonable and pig-headed. Everyone feels very kindly towards the Darracq people and it is hoped that they will be successful in getting another driver. Their cars are very swift and if they are again allowed to participate, they will undoubtedly be heard from.

SHIRT AND CUFF NOTES OF RACES

At this meet there are more newspapermen represented than on any previous

meet on the beach. The press stand in front of the Club House is a lively place, with the crowd of newspaper men who congregate there to gather information, and send reports to their papers. The large news gathering associations and the metropolitan papers have their best men on the ground.

"Senator" W. J. Morgan, who is one of the busiest of men this week, was in town for a short time yesterday, and paid the Daily News a business call.

The Minneapolis Trophy was removed from President Paine's home to the Club House today, where it is being admired by thousands.

Overcoats were in evidence on every hand yesterday, to keep the outer man warm. Many members of the club used other methods to keep the inner man from feeling like an ice chest.

Ford and Thomas have not yet weighed in their cars but it is expected that they will do so this morning.

The refreshment department of the Club House did a heavy business yesterday. A great many of the members, with their families and friends, went over early in the morning and remained all day, partaking of their noonday lunch at the Club House.

The Minneapolis Club yesterday formed an organization to be known as the Minneapolis-Daytona Club, whose members will make yearly excursions to the Ormond-Daytona Beach. Each member must have paid one visit to this beach in order to be eligible for membership.

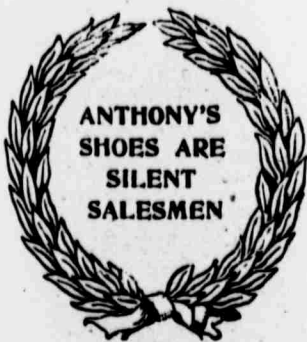

President Paine, of the Florida East Coast Automobile Association, will give an informal reception this evening at the Club House to the members of the Minneapolis association. J. B. Hinsky will decorate the tables with Florida fruit, while the Club chef, assisted by Mr. and Mrs. Leon Despland, will be in charge of the catering.

PROCEEDINGS IN POST CASE.

**Trial of Mrs. Helen Wilman Post oc-
cupies Time of the United States
Court in Jacksonville.**

While the trial of Mrs. Helen Wilman Post occupied the entire session of the United States Court Tuesday, the exam-
ination of the first witness for the Gov-
ernment was not concluded when the
court adjourned for the day.

The first witness called by the at-
torneys for the Government was Edward
F. Brittain, of Seabreeze, Fla., who
was formerly in the employ of Mrs. Post
as a printer of the numerous pamphlets,
circulars and periodicals gotten out by
her to advertise her business, and which
it is alleged she sent through the mails.

This witness was used to identify the
pamphlets, circulars, copies of the paper
called Freedom, and other publications
printed by him for Mrs. Post. As soon
as the witness would identify a paper or
circular of any kind containing an ac-
count of the mental science scheme or
mental science treatment claimed to be
given by Mrs. Post, the article so identi-
fied would be read to the jury by one of
the attorneys for the prosecution. The
paper would then be handed to the
Clerk of Court and filed in evidence.

The attorneys for the defense objected
to nearly every paper introduced as
being irrelevant, immaterial and tending
to encumber the record with useless
matter. In several instances the objec-
tions were sustained and the papers were
not allowed to be read to the jury.

When the case was taken up Monday
the attorneys for the defense asked for a
severance of the indictments numbered
141, 160, 161 and 176, protesting against a
consolidation of four indictments.
Tuesday morning Judge Boardman, be-
fore whom the case is being tried de-
clined the motion for the severance and
the consolidation of the charges con-
tained in the four indictments was al-
lowed. All of the indictments charge
substantially the same alleged offense,
to-wit: That the defendant did devise
a scheme to defraud, and that she used
the United States mails for the purpose
of carrying out such fraudulent scheme.

The defense desired the court to di-
rect the prosecution to elect upon which
of the counts or particular charges they
would ask for a verdict, but the court
did not rule upon this request at this
time. As in the former trial, the Gov-
ernment attorneys stated that they ex-
pect to prove the defendant guilty of
the offenses alleged in the indictments,
which are to the effect that the defend-
ant claimed that through her mental
treatment she could cure people of pov-
erty; that she could treat women and
enable them to marry men of their
choice; that she could make hair grow
on bald heads; that she could treat per-
sons for the gambling habit, and cure
them of said habit, or enable them to
become successful in gambling; that she
could restore lost affections; and that
she could remedy all undesirable con-
ditions with which humanity might be
afflicted.

On the other hand, the attorneys for
the defendant contend that the defend-
ant is not guilty of the charges brought
by the Government, and they contend
that the prosecution calls a scheme to de-
fraud was in reality a lawful and legiti-
mate business, and was conducted in a
lawful and legitimate manner.

CHARGED WITH ROBBERY

**Betty Mitchell, of Color, is in the Tolls
of the Law for an Alleged Offense.
Occupies City Jail for a Time.**

Betty Mitchell, a colored "lady" is
securely locked in one of the cells of the
city calaboose, charged with highway
robbery.

Tuesday evening as E. M. Polman
was on his way home he was stopped
by the woman for information as to
where someone lived. While Mr. Hol-
man was giving her the information he
felt his pocket book slipping from
his pocket. He grabbed the woman and
called for help. Officer Lassinger re-
sponded and Betty was taken to jail, at
which place she was searched but no
money was found on her. Mr. Holman
and a couple of other gentlemen went
back to where the robbery occurred and
the money, eighty-seven dollars, was
found wadded up on the ground where
the woman had evidently thrown it when

Mr. Holman grabbed her.

Her preliminary was held before Jus-
tice Cox this morning, and as she was
unable to give the required bond of \$1,-
000 she was remanded to jail to await
the action of the Criminal Court.

Betty and her husband are strangers
in the city and claim to hail from Col-
umbus, Ohio.

Railway Ticket Protective Bureau Meets at Hotel Ormond.—Brokers Charged With Contempt.

A meeting of the executive board of the Railway Ticket Protective Bureau is in session at the Hotel Ormond. Present are F. C. Donald, chairman of the Central Passenger Association, Chicago; L. P. Farmer, chairman, Trunk Line Passenger Association, New York; N. E. Weeks, chairman, New England Passenger Association, Boston; E. E. MacLeod, chairman, Western Passenger Association, Chicago, and Joseph Richardson, chairman, Southern Passenger Association.

The Railway Ticket Protective Bureau is the medium through which the railroads are conducting the vigorous campaign against ticket scalping. The meeting is being held behind closed doors, and nothing could be learned as to the subject under discussion, nor why it is being held in Florida, but it is noticed that the meeting of the board and the filing of papers in the United States Court charging brokers in Jacksonville and Tampa with contempt of court, occur at practically the same time.

PICKPOCKETS ARE AT WORK.

H. H. Barnes Loses \$80 in Bills Yesterday Afternoon at the Railroad Station.

H. H. Barnes, of Myrtle, Ala., who has been stopping at Ponce Park for some weeks past, was robbed of \$80 in bills of various denominations at the station yesterday afternoon by a pick-pocket while going from the gate to the inside of the station grounds.

Mr. Barnes reported the matter to Marshal Zuber, who was at the station. The former said that a man was pushing very close to him as he went through the entrance. He felt sure that he was the party, and that he could easily recognize him again. The alleged crook is about 45 years of age; weight, about 140 pounds with his hair turning gray.

The crook and Mr. Barnes took the northbound train, and it is probable that he will endeavor to have the man arrested.

It is reported that the man who picked the pocket has three confederates.

On the beach yesterday there was an elderly gentleman who was also unfortunate in losing his purse, but fortunately there were only notes in it which will prove of no value to the party in whose possession it is.

The public should take special care of their valuables and money during the week, as it is safe to say that there are other light fingered gentry who are operating here.

Broke The Plank.

One of the large auto buses owned by E. D. Creamer, broke several planks on the South Bridge yesterday afternoon, about 3 o'clock, and caused a great furor of excitement. Traffic for a few minutes, was held up, and about twenty-five teams and a number of automobiles could not pass as a consequence, until repairs had been made. Carpenters were immediately put to work to repair the damage, after the accident.

The car was heavily loaded at the time of the mishap.

Superintendent Gove, in a statement to the Daily News last night, announced that hereafter, the two auto buses would not be allowed to cross any of the three bridges which span the Halifax.

District Passenger Agent J. C. Lusk, of the Southern Railway, is in the city on pleasure and business combined.

PLUNGED INTO THE RIVER.

Pheleg Brown and His Cadillac Tore Away the Railing of the Peninsula Bridge Last Night.

Pheleg Brown, of Narragansett Pier, R. I., narrowly escaped a watery grave about 6 o'clock last night in the Halifax River at the Peninsula Bridge. Mr. Brown, while coming to Daytona from Seabreeze, and when about 100 yards west of the draw, turned to the right to escape a passing automobile, and in doing so his car slipped and ran into the river. In taking this fearful flight, the automobile tore away 40 feet of the bridge railing.

The accident caused a loud noise, which attracted the attention of the bridge tender, S. E. Gilmore, and one or two other gentlemen who were in the vicinity. They went to the rescue, and succeeded in getting Mr. Brown from the river.

The automobile was a Cadillac touring car. It will probably be taken from the river today by the dredge. It lies in about seven feet of water.

Mr. Brown was scratched over the eyes, but otherwise he is not injured to any extent.

It is said that the machine was running very fast when the accident occurred.

City in Darkness.

Every eye light in the city has been burned out and the town is in total darkness.

On Monday evening the Electric Company turned on the new and heavier voltage on the old lights and every one of the 36 street lights were burned out. Superintendent Gove immediately telegraphed for new lamps and they are coming by express. He says he expects to have everything in shape to turn on the lights again Saturday night.

During the Auto Races the Steamer Uncle Sam will run between Daytona and Ormond on convenient schedules. On Saturday 27th the boat will run up the Tomoka River at regular time of leaving.

F. C. Buffum of the Motor Transit Company has completed an addition to his garage on First street. The garage is now capable of accommodating eight machines.

Wallace J. Palmer, representing the Oklawaha River line, is in the city for the season, and has opened an office.

Reo Trailing Car.

The Reo trailing car arrived yesterday in a shipment of Reo cars consigned to F. C. Buffum, manager of the Motor Transit Company. The trailing car was immediately attached to the rear of R. E. Old's runabout, and today will be placed in commission.

The Reo trailing car is capable of carrying six persons comfortably. The seats are on the side and in the middle the car is arranged for carrying luggage. The trailing car will be the first of its kind seen here, and when put on the streets will attract much attention.

In the shipment of Reo's which arrived there were four machines, one of them a Reo runabout which shortly after its arrival here was sold to Mr. Miller, residing on Palmetto Avenue.

James F. Meade, traveling freight agent of the Atlantic Coast Line, is taking in the automobile races.

Shoes for the Whole Family.

Some people appear to think that it makes no particular difference where they buy shoes, that all shoe stores are about alike and that it's about the same thing everywhere. These people are laboring under a great hallucination of the mind, for there is fully as much difference in shoe stores as there is in the people who wear the shoes.
